Importance: High

Good afternoon.

For those of you who don't know me, my name is Shereen Kandil and I'm the Community Affairs Team Leader for the U.S. Environmental Protection Agency Region 2 (NY, NJ, PR, VI). I also serve in a dual role as a Community Involvement Coordinator for many Superfund sites, including the Riverside Industrial Park Superfund site.

I wanted to introduce myself to you and share the attached promotional flyer for the upcoming virtual public meeting for Riverside Industrial Park. Today, EPA issued a Proposed Plan identifying its preferred cleanup alternatives for addressing contamination at the Riverside Industrial Park Superfund site. EPA's proposal addresses contaminated soil, groundwater, and vapor intrusion as well as waste removal and cleaning out an inactive sewer to prevent an uncontrolled release of contaminants to the environment.

A 30-day public comment period on the Proposed Plan begins today, Wednesday, July 22, 2020 and ends on Friday, August 21, 2020. As part of the public comment period, EPA will hold a virtual public meeting on the Proposed Plan on **August 5, 2020 at 7:00-9:00 p.m.** To participate in the meeting, please see the attached flyer and visit our website for more information: www.epa.gov/superfund/riverside-industrial.

Please contact me with any questions.

Thank you and looking forward to your participation.

In health,
Shereen
